

2018 FMC Replant Assurance Program

Program Description:

The 2018 FMC Replant Assurance Program is designed to provide growers with additional protection from adverse weather and pest conditions when they use FMC brand products at-plant for their seed and seedling pest control in corn and soybeans.

Eligible products: Capture[®] LFR[®] Insecticide, Capture[®] LFR[®] Insecticide + VGR[™] Soil Amendment, Capture[®] 3RIVE 3D[™] Insecticide, Ethos[®] XB Insecticide/Fungicide, Temitry[™] LFR[®] Insecticide/Fungicide applied at-plant in corn and soybeans* at no less than minimum labeled rates.

- **Replant Assurance** – Growers are eligible through June 1, 2018, for reimbursement of 50 percent of the cost of an additional treatment with in-furrow brands listed above should the grower choose to replant due to weather-related conditions. For this replant reimbursement, growers must apply the additional treatment in full accordance with all label directions.

To be eligible, growers choosing to participate must contact their local FMC Retail Market Manager or Star Retailer before selecting the coverage option and making additional applications of any qualifying FMC product.

Program Requirements:

1. Leave a check strip in each field for at least one (1) complete round and mark its location
2. Use identical seed varieties or hybrids, fertility, tillage, seeding rate and weed control programs in all comparison check strips.
3. Variable rate seeding technologies and crops grown for seed do not qualify for this program
4. Products must be applied according to label use directions
5. Growers must sign agreement to participate in assurance program by **June 1, 2018**
6. Record and save product lot or batch numbers
7. If there is a concern about return on investment, you must contact your FMC representative no later than **June 1, 2018**

Program Period:	February 1, 2018 – June 1, 2018
Program Geography:	Continental USA
Program Submission Date:	June 1, 2018
