

2018 Hero[®] Insecticide Soybean Assurance Program

Program Description:

An early application of Hero[®] insecticide to soybeans is a best practice for effective control of early-season soybean insects such as bean leaf beetles, stink bugs, soybean aphids, grasshoppers and Japanese beetles that cause significant yield reductions. Apply Hero insecticide at a rate of 5.12 oz./A (1 gal. per 25 acres) or in a tank mix with post herbicides and/or fungicides to protect against these insects and to maximize your yield potential.

When Hero insecticide is applied at 5.12 oz./A and a second application is required for soybean aphids because of heavy or late infestations based on the soybean aphids exceeding 250 aphids/plant within 45 days as set forth below (such determination shall be made solely by an FMC representative or an FMC authorized agent), **FMC will reimburse up to \$3/A or the cost of the re-spray product, whichever is less for a second labeled application of one of the following insecticides:**

Qualifying Product	Assurance Benefit	Minimum Application Rate	Program Payment Timing
Hero [®] Insecticide	250 aphids/plant within 45 days	5.12 oz./A	30 days after claim submission
Stallion [®] Brand Insecticide	250 aphids/plant within 45 days	11.75 oz./A	
Mustang [®] Maxx Insecticide	250 aphids/plant within 45 days	4 oz./A	
Dimethoate [®] 4E Insecticide	250 aphids/plant within 45 days	1 pt./A	

Program Requirements:

1. Leave a check strip in each field for at least one (1) complete round and mark its location
2. Use identical seed varieties or hybrids, fertility, tillage, seeding rate and weed control programs in all comparison check strips.
3. Variable rate seeding technologies and crops grown for seed do not qualify for this program
4. Products must be applied according to label use directions
5. Growers must sign agreement to participate in assurance program before application and by **June 1, 2018**
6. Record and save product lot or batch numbers
7. If there is a concern about return on investment, you must contact your FMC representative no later than **September 5, 2017**
