

2018 Soybean Herbicide Assurance Program

SOUTHERN REGION RECOMMENDATIONS

FMC Spring Assurance Guidelines:

Growers that follow the guidelines of the FMC Spring Weed Management Recommendations at the minimum specified rate depending on use timing (See table below) will be eligible for an assurance payment up to \$14.0/Acre if the treatment does not maintain commercially acceptable 90% control of labeled weeds versus an untreated check within 15 days after the early post application. The assurance claim must be reported within 15 days after the early post application. Spring pre-emergent applications (no less than 15 days before planting) must include labeled rates of Roundup + 1.0 pt/acre of 2,4-D LV4 or 1.0 pt/acre of 2,4-D plus 1.0 fl. oz./acre of Aim EC Herbicide to control emerged weeds.
