

2018 Soybean Herbicide Assurance Program

Program Description:

Growers that follow the guidelines of the FMC Fall Weed Management Recommendations at the minimum specified rate depending on use timing (See table below) will be eligible for a \$7.0/Acre assurance payment if the treatment does not maintain commercially acceptable 90% control of labeled weeds versus an untreated check. The assurance claim must be reported within 30 days after the spring season application. Fall applications must include labeled rates of Roundup Powermaxx® herbicide + 1.5pt/acre of 2,4-D or 16 oz/acre of dicamba to control emerged weeds. Spring pre-emergent applications must include labeled rates of Roundup Powermaxx® herbicide + 1.0 pt/acre of 2,4-D LV4 or 1.0 pt/acre of 2,4-D plus 1.0 oz/acre of Aim® EC Herbicide to control emerged weeds.
